EXPERIENCE

App Development Intern	**Jan** 2024 – **April** 2024
SoftCoding Solutions.	Ahmedabad

- Developed and implemented a FoodStall Management system streamlining the process of sales tracking, order processing.
- Designed and developed a Task Manager Application enabling admin to create, assign and track tasks in real time, enhancing team collaboration and productivity.
- Docker to containerize applications, facilitating easy deployment and scalability across different enviroments.

Frontend Developer Intern	**April** 2023 – **July** 2023
Crushverse Technologies Pvt. Ltd.	Remote

- Assisted in the development of responsive and interactive web applications using React Js, Next Js and JavaScript and HTML/CSS.
- Worked with backend developers to integrate frontend code with backend systems, APIs and databases.
- Worked closely with the Co-Founder of the company in development of production level project called Refer Me.

PROJECTS

Food Stall Management | ReactJs, Ruby on Rails

- A Food stall management application using React Native framework catering to customers, vendor and admin.
- Implemented user-friendly interfaces for browsing menus, placing orders, and managing inventory.
- Utilized React native for frontend development to ensure cross platform compatibility, integrated payment getaways for secure transactions.

House Market Place | ReactJs, Firebase, Redux

- Developed full stack application that allows users to sell or buy properties.
- Uses Firebase as its database.
- Built entirely on React framework.
- Allows its users to upload images and also track location using Geolocation API.

Github Finder | ReactJs, Redux

- Data visualization of Github users.
- Features a robust search bar and dynamic pages that provide comprehensive information about Giihub users.
- Explore their repositories, contributions and followers and more all in one centralized platform.
- Built using ReactJs, Redux and REST API.
